EDUCATION

University of North Carolina at Charlotte, Charlotte, NC

GPA: 3.64

Bachelor of Science in Computer Science | Concentration: Data Science

Expected May 2028

Bachelor of Science in Business Administration | Concentration: Business Analytics

Expected Dec. 2026

- **Relevant Coursework:** Business Analytics, Data & Information Management, Econometrics, Statistics, Programming for Business Analytics

PROJECT EXPERIENCE

California Crime Analytics & Machine Learning Project

Spring 2026

Business Analytics II

- Collaborated with classmates to analyze 57 months of California socioeconomic and crime data in Python, transforming raw data into structured features for analysis.
- Prepared data through date conversion, feature scaling, and target engineering; applied K-Means and evaluated cluster quality using the elbow method and silhouette score.
- Built and compared neural-network and random-forest classifiers; the random forest achieved 93% accuracy and 100% recall with zero false negatives, outperforming the neural network's 87% accuracy.

LA Fitness Database Design Project | Project Manager

Fall 2025

Data & Information Management

- Led a five-person team, defined the business problem, assigned responsibilities, and coordinated deliverables to complete the project accurately and on schedule.
- Mapped operational needs into business rules, a data dictionary, and a normalized ERD; built Microsoft Access forms, reports, and SQL queries to standardize information and support analysis.

Freight Pricing Regression Analysis

Spring 2026

Statistics II | R, OLS, Model Selection, Diagnostics

- Modeled freight price using distance, weight, load percentage, product, market, carrier, and deregulation factors; applied best-subset selection, Breusch-Pagan testing, and residual diagnostics.

WORK EXPERIENCE

Job-Search Email Automation Agent | Double Dev

June 2026 – Present

Automation Project Consultant

- Partner with a developer and client to translate business requirements into a Python workflow that classifies job-search emails, extracts structured job fields, and updates Google Sheets.
- Validated five email sources in a controlled acceptance run, processing 21 messages and appending 302 job records across LinkedIn, Indeed, Glassdoor, Lensa, and ZipRecruiter.
- Use test-driven development to add audit-trail and batch-write capabilities while maintaining 287 passing automated tests; document OAuth setup, acceptance testing, and client handoff workflows.

LA Fitness | Charlotte, NC

May 2022 – Present

Operations Associate

- Execute daily business operations and resolve member account and service issues in a high-volume environment, supporting customer experience and retention.
- Analyze membership and demographic data in Microsoft Excel to identify account trends and inform sales, renewal, and customer-engagement decisions.
- Coordinate with sales and operations teams through Microsoft Teams to organize priorities, communicate handoffs, and complete time-sensitive tasks accurately.

SKILLS

Business & Operations: Business analysis, requirements gathering, process mapping, process improvement, project coordination, risk-aware quality controls

Data & Technical: Python, SQL, R, Java, Pandas, Tableau, Alteryx, SAS Enterprise Miner, Microsoft Access, statistical modeling

Tools & Methods: Microsoft Excel, PowerPoint, Word, Teams, Jira, Git/GitHub, Google Sheets, Gmail API, Google Sheets API, test-driven development

Language: Farsi/Persian (Intermediate)
